### **Special Education Topics**

1. Safety Care Training- safety care trainers have completed the certification process. Paras and teachers will participate in training sessions on November 10 and 11.
2. Transition Program- the coffee café, TAP program and I work simulation activities all provide for the student's transitional needs. Trips to various stores provide the students with shopping experiences. OVR (Occupational Vocational Rehabilitation) Early Outreach introduces the agency to the student. This agency aids these students, and their parents post high school.
